

CONNECTSW · HUMANID

8 Billion People. One Identity.

HumanID gives every human a secure, verifiable digital identity — built on open standards, anchored on blockchain, and protected by zero-knowledge proofs. No central authority. No data brokers. You own it forever.

 W3C Standards

 Blockchain-Anchored

 Zero-Knowledge Proofs

 FIDO2 Biometrics

THE PROBLEM

Identity is Broken

1.1B

People Excluded

Over 1 billion people worldwide lack any legally recognized identity — unable to access banking, healthcare, or digital economies.

50+

KYC Repeated Every Time

Each new service demands re-verifying full credentials — name, DOB, address, photo — even just to answer "are you over 18?"

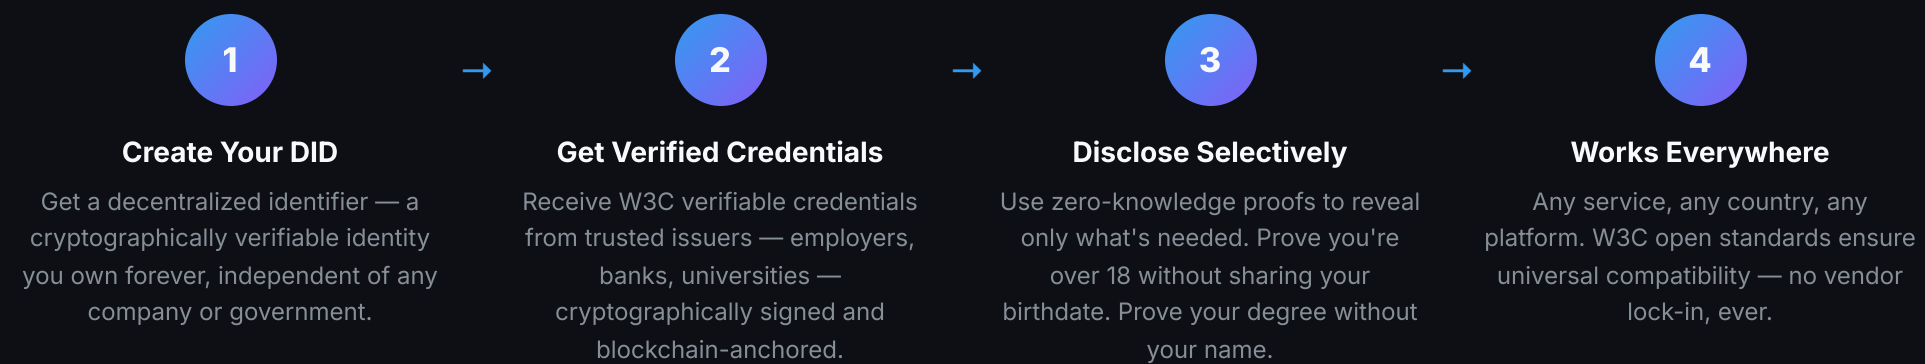

147M

Records Breached

Centralized databases are catastrophic attack surfaces. Equifax: 147M records. Aadhaar: 1.1B leaked. No recourse for users.

THE SOLUTION

Create Once. Use Everywhere.

PLATFORM

Everything Identity Needs

Self-Sovereign Identity

Users own their DID. No central authority can revoke or modify it. True, permanent, portable ownership.

Verifiable Credentials

W3C-compliant, cryptographically signed, tamper-evident credentials from any trusted issuer — readable by any verifier globally.

Zero-Knowledge Proofs

Groth16 ZKP engine for selective attribute disclosure. Share what's needed — nothing more. Mathematical privacy guarantee.

Blockchain Anchoring

Identity events anchored immutably on Polygon L2. Censorship-resistant, globally auditable, no central database to breach.

Biometric Proofing

FIDO2/WebAuthn hardware key authentication. No passwords, no phishing, no credential stuffing. Strongest auth standard available.

Developer API

115 documented API paths with full OpenAPI 3.0 spec, API key auth, rate limiting, and 30 domain modules. Integrate identity into any app in hours.

MARKET OPPORTUNITY

\$34.5B Today. \$83.2B by 2030.

SEGMENT		2024 Market Size • CAGR
Identity Verification		\$12.8B • 15.4% CAGR
Biometric Authentication		\$8.6B • 14.2% CAGR
Government ID Programs		\$11.7B • 12.8% CAGR
Decentralized Identity ⚡		\$1.4B • 88.7% CAGR

Serviceable market: \$5–10M Year 1 → \$50–100M by Year 3

COMPETITIVE LANDSCAPE

No One Does All of This

Capability	HumanID	Worldcoin	Civic	MS Entra	Google SSO

FOR USERS

Your Identity. Your Rules.

Open a Bank Account

Prove identity to any bank worldwide using your HumanID credentials. No paperwork, no office visits, instant digital verification.

Carry Your Credentials

University degrees, certifications, professional licenses — all in your identity wallet, verifiable by any employer anywhere, instantly.

An ID for Everyone

For the 1.1B without government ID, HumanID provides a globally recognized digital identity usable across 190+ countries.

Stay Private

Prove you're over 18 without revealing your birthdate. Prove your address without disclosing your name. ZKP makes it mathematically certain.

BUSINESS MODEL

Built to Scale

INDIVIDUAL

Free

Forever free for humans

- ✓ 1 Decentralized ID
- ✓ 10 verifiable credentials
- ✓ Identity wallet
- ✓ ZKP selective disclosure

DEVELOPER

\$49

per month

- ✓ API key access
- ✓ 50K verifications/mo
- ✓ Credential templates
- ✓ Webhook events

ENTERPRISE

Custom

SLA + priority support

- ✓ Unlimited verifications
- ✓ Dedicated instance
- ✓ SOC2 compliance
- ✓ GDPR Data Processor

GOVERNMENT / NGO

Custom

Mission-driven programs

- ✓ National ID programs
- ✓ Refugee ID support
- ✓ Offline issuance
- ✓ Full audit & compliance

TRACTION

Production-Ready Today

8.6/10

Professional Audit Score

Security, architecture, code quality, performance — all independently assessed. Enterprise-grade readiness confirmed.

1,105

Tests Passing

990 API + integration tests, 28 frontend RTL tests, 87 Playwright E2E tests. 100% passing, zero failures.

CI/CD

Full Pipeline

GitHub Actions — automated testing, security scanning, type checking, and deployment on every commit.

✓ OWASP Top 10: 9/10 Pass

✓ GDPR Art. 15-18, 20 Live

✓ 115-Path OpenAPI 3.0 Spec

✓ Prometheus + OTEL Observability

✓ 30 Documented API Modules

TECHNOLOGY

Built on Industry Standards

Backend

- Node.js 20
- TypeScript 5
- Fastify 4
- PostgreSQL 15
- Redis 7
- Prisma ORM

Frontend

- Next.js 14
- React 18
- Tailwind CSS
- TypeScript

Identity & Cryptography

- W3C DIDs
- Verifiable Credentials
- Ed25519
- Groth16 ZKP
- FIDO2/WebAuthn
- AES-256-GCM

Infrastructure

- Polygon L2
- Docker
- GitHub Actions
- Prometheus
- OpenTelemetry
- Render

VISION

The Identity Layer for the Internet

HumanID is foundational infrastructure. As the ConnectSW ecosystem grows, every product — from GRC platforms to payment systems — integrates HumanID as the universal identity layer. One standard. Infinite applications.
